DETAILED ACTION

Drawings

The drawings are objected to because the exploded view has not been bracketed, as is required when an exploded view appears on the same page as another figure. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Information Disclosure Statement

The information referred to in the information disclosure statement filed January 9, 2004 has been considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9, 11 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 10 of claim 1, it is unclear if "said chair brackets" are intended to be the same feature as the previously set forth "chair bracket assemblies". In line 1 of each of claims 5 and 6, it is unclear if the "removable table top" is intended to be the same feature as the previously set forth "removable table top assembly". In line 1 of claim 6, "said table top connectors" lack proper antecedent basis. In line 2 of claim 6, "the length" lacks proper antecedent basis. In line 2 of claim 6, "said posts" lack proper antecedent basis. In line 9 of claim 7, "said platform posts" lack proper antecedent basis. In line 1 of each of claims 8 and 9, it is unclear if the "removable table top" is intended to be the same feature as the previously set forth "removable table top assembly". In line 1 of claim 9, "said table top posts" lack proper antecedent basis. In line 1 of each of claims 11 and 12, it is unclear if the "removable table top" is intended to be the same feature as the previously set forth "removable table top assembly". In line 1 of claim 12, "said table top posts" lack proper antecedent basis. In line 2 of claim 12, "the length" lacks proper antecedent basis. In line 2 of claim 12,

"said posts" lack proper antecedent basis. Claims 2-4 are indefinite since each depends from an indefinite claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, and 6, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Ostergaard, II et al (4566732). Note the top side (72), bottom side (74), two connectors (50, 42), pair of chair bracket assemblies (22, 24), joint channel (34), connector receiver (32), first bracket (26), second bracket (60), folded mode (see Figure 6), telescoping portions (portions received in members 22, 24).

Allowable Subject Matter

Claim 10 is allowed.

Claims 3, 4, 8, 9, 11 and 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

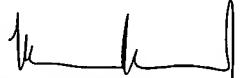

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A foldable chair/table combination is shown by Brandes et al (2447391).
